ON ANOTHER LEVEL  
WITH JAPANESE STYLE  
ROBATA GRILL**

## ROBATA GRILL ORIGINS

Robata is a long-standing Japanese grilling tradition. The origins go back to ancient fishermen in northern Japan who took boxes of hot coals with them on their boats to heat and grill the fish they caught.

Modern Robata is a type of charcoal grill modeled after those coal boxes. In Japanese and Asian kitchens Robata grills are mostly used to grill in front of guests.

The versatility of Robata grill makes it very suitable for all kinds of cuisines and all kinds of grilled dishes. The Layout of Robata grill allows for many different heat zones that can be used for grilling or heating of food.

## KOPA ROBATA

Just like other KOPA products, KOPA ROBATA is a high quality product using high end steels and is built to last. We use only high grade insulation materials that, together with naturally ventilated housing, prevent excessive heat-up of external surfaces. Different layouts ensure a maximum adaptability of KOPA ROBATA in your kitchen.
