

sanodegusto

more time to serve, eat, enjoy

---

**HORECA  
& HOTELWARE**  
COLLECTION 2019

09.04.2019

# Your culinary revolution starts with smart tableware

The Sanodegusto powered by Tempcontrol® tableware collection means a real kitchen revolution. By putting Sanodegusto tableware in the oven, heating cabinet or freezer it will capture the heat or cold and slowly release it afterwards, while maintaining the exact, constant temperature.

**No more stress while plating, serving or eating!**

**BELGIAN PATENTED TECHNOLOGY**

# WHY SANODEGUSTO?

It stays **longer warm** or **cold** than any other tableware

It offers **more time to plate, serve and eat**, so no more stress

It preserves all **flavours and vitamins**

It comes with a **stylish and distinctive design**

**Training and sales support**

# HOW TO USE OUR COLD PRODUCTS

1

Put the plate in your freezer for 70 minutes

2

Take it out and serve your food on the plate

3

Your food stays cold for more than 30 minutes

COLD

**Keep tableware cool at 4°C / 39°F**

4°C / 39°F is the ideal temperature to keep your fruit, cheese, carpaccio, tapas, sushi or even your desserts fresh.

# HOW TO USE OUR WARM PRODUCTS

1

Put the plate  
in your oven at  
90°C/194°F for  
70 minutes

2

Take it out and  
serve your food  
on the plate

3

Your food stays  
warm for more  
than 30 minutes

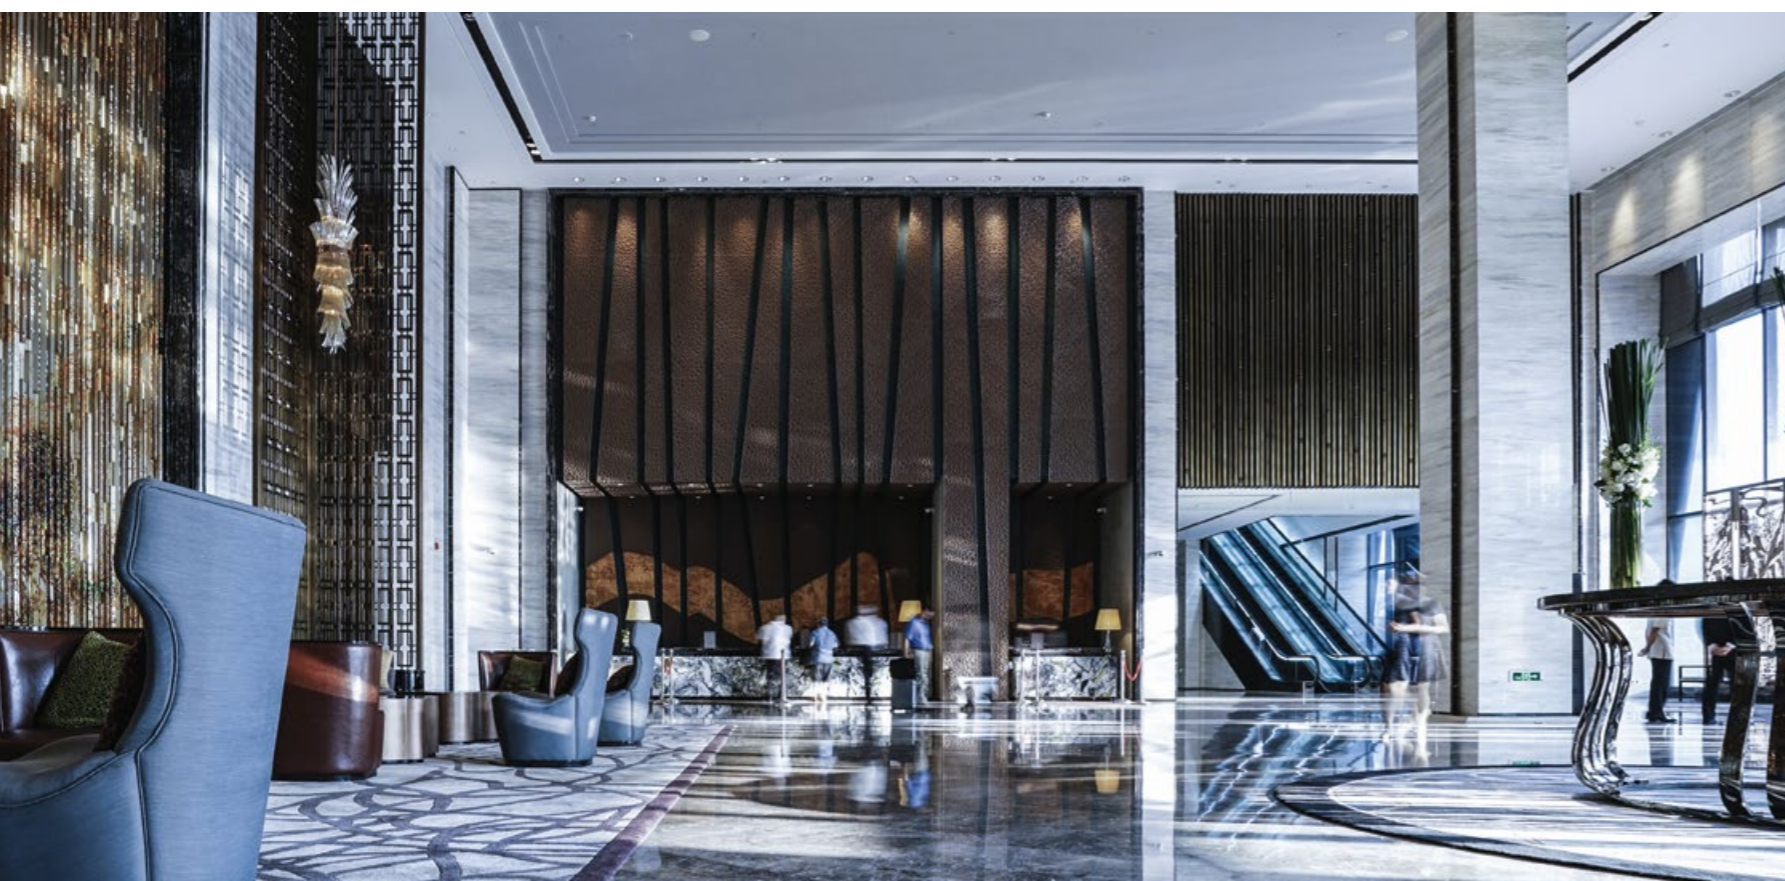

WARM

55°C / 131°F

Keep tableware warm at  
55°C / 131°F

55°C / 131°F is the perfect  
temperature to keep your steak,  
fish or vegetables warm.

## SOLUTION FOR EVERY HOTEL

- ① Your dishes have the right temperature when they arrive at your guests' room.
- ② Assure a warm plate after choosing food at the buffet.
